Nintex Named SIIA Business Technology CODiE Award Finalist for Best IT Service Management Solution

WASHINGTON, April 11, 2016 /PRNewswire/ -- Nintex today announced that the **Nintex Workflow** platform was named a finalist for the **2016 SIIA CODiE Awards** in the Best IT Service Management Solution category. Finalists represent the information industry's best products, technologies, and services in the software, content and business technology.

The SIIA CODiE Awards, http://siia.net/codie, are the premier awards for the software and information industries, and have been recognizing product excellence for over 30 years. The awards offer 91 categories that are organized by industry focus of education technology and business technology. Nintex Workflow was honored as one of 215 finalists across the 62 business technology categories.

"I am amazed by the level of innovation and creativity of the products that have been selected as this year's CODiE Award finalists. We are happy to recognize them for their great contributions and impact they are making on the software, content and business technology industries," said **Ken Wasch, President of SIIA**.

The Nintex Workflow platform, http://www.nintex.com/workflow-platform, enables organizations to quickly and seamlessly automate a wide range of business processes. IT managers trust Nintex's technology to create secure and scalable workflow solutions for operating departments. Working across large enterprise wide technology ecosystems like Microsoft and Salesforce, Nintex enables companies in over 90 countries to generate greater employee productivity and efficiency. In less than 10 years, Nintex has built a global network of more than 1,500 partners serving over 6,000 customers worldwide. Many Nintex customers run hundreds of workflow each day and there are over one million Nintex workflows which are each run an average of 500 times annually. The success of the Nintex Workflow platform is the result of Nintex's significant investment in a wide range of product development initiatives which have expanded the capabilities and addressable use cases for this platform.

"We've long regarded our workflow platform as something everyone can use to solve a wide range of business problems," **said Mike Fitzmaurice, Nintex's Vice President of Workflow Technology.** "Nintex is delighted that our technology has been recognized by the SIIA for providing valuable IT service management solutions."

The SIIA CODiE Awards are the software and information industry's only peer-reviewed awards program. The first round review of all nominees is conducted by software and business technology executives with considerable industry expertise, including members of the industry, analysts, media, bloggers, bankers and investors. The judges are responsible for selecting the CODiE Awards finalists. SIIA members then vote on the finalist products and the scores from both rounds are tabulated to select the winners. Winners will be announced during a virtual award ceremony on May 18.

Details about each finalist are listed at http://www.siia.net/codie/Finalists.
