Nintex Introduces Nintex Xchange™ with Pre-Built Workflow Templates, Actions and Other Resources

Nintex Xchange is a central repository of resources that enables innovation across the Nintex workflow platform

PR Newswire
BELLEVUE, Wash.

BELLEVUE, Wash., June 2, 2016 /PRNewswire/ -- Nintex today announced the roll out of **Nintex Xchange™**, an online gallery where Nintex customers and partners can easily find, use, and share a wide range of workflow resources developed by the community, for the community. By leveraging the pre-configured workflow designs and other resources in Nintex Xchange, workflow designers will be able to quickly and easily convert sophisticated, business-wide processes into efficient and cost-effective automated workflows leveraging Nintex's industry-leading solutions.

"Nintex Xchange is a central repository of workflow-related resources built by our customers and partners and shared within the Nintex community," said **Nintex VP of Channels & Product Marketing Josh Waldo**. "People can build workflows, forms, and mobile solutions faster than ever thanks to the availability of best practice solutions in Nintex Xchange. We are excited to see the Nintex community fuel it through sharing their innovation."

Within Nintex Xchange, pre-built resources such as User Defined Actions (UDAs) and workflow templates can be sorted by four filters which will make finding solutions to specific business needs a seamless experience. Filters include:

- **Platforms** – SharePoint Server, Office 365, and Salesforce
- **Asset Types** – Connectors, Custom Actions, Custom Code, Document Generation, Forms Templates, UDAs, Solutions, and Workflow Templates
- **Horizontal Workloads** – Sales & Marketing, Finance, Human Resources, IT & Administration, Customer Service, Field Service, and Safety
- **Industry Sectors** - Communications & Media, Education, Financial Services, Government, Healthcare & Life Science, Legal, Manufacturing, Professional Services, Retail Services, and Technology

Once an item is selected for download from Nintex Xchange, it can be imported directly into the Nintex Workflow or Nintex Forms designer and put into practice immediately.

Nintex Xchange is available to Nintex customers and partners via xchange.nintex.com/ which is part of **Nintex Connect**, https://community.nintex.com/, the company's user community which provides a broad and deep set of online enablement tools for self-service and user collaboration as well as real-time peer-to-peer engagement and networking opportunities.
