

Nintex Workflow Platform Makes G2 Crowd's 'Best Software for Development Teams | 2017 List'

New G2 Crowd report, based on real user reviews, recognizes Nintex for its powerful and easy-to-use workflow and content automation (WCA) development platform

BELLEVUE, Wash., Jan. 16, 2017 /PRNewswire/ -- Nintex, www.nintex.com, announced today that the company's flagship **Nintex Workflow Platform** has made G2 Crowd's "**Best Software for Development Teams | 2017 list**" in the No-Code Development Platforms category based on product reviews from real users.

"G2 Crowd's recognition is a fantastic way to kick off 2017," said **Nintex CEO John Burton**. "What makes this even more rewarding is that this recognition comes directly from the people that use Nintex to improve how they work every day. We thank our customers for their support as we're committed to leading and driving innovation in the workflow and content automation category."

G2 Crowd, www.g2crowd.com, the world's leading business solutions review platform, leverages more than 130,000 user reviews to drive better purchasing decisions. Since 2014, G2 Crowd has recognized the best software products of a given year based on user reviews. This year G2 Crowd recognized best software products for business professionals based on job function and company size, determined by reviews submitted by the product's users with its 'Best Software | 2017' Lists, <https://www.g2crowd.com/blog/announcements/best-software-use-2017>.

The 2017 lists are determined based on G2 Crowd user review data collected between January 1, 2016, and December 31, 2016, in order to help software buyers make the best possible purchase decisions in 2017.
