

Nintex Ranks as one of Washington's Best Workplaces for Third Year in Row

BELLEVUE, Wash., Aug. 4, 2017 /PRNewswire/ -- Nintex, the recognized global leader in workflow and content automation (WCA), announced that for the third year in a row the company has ranked as one of Washington's Best Workplaces by the *Puget Sound Business Journal*.

The annual Best Workplaces list honors the top 80 employers in the state of Washington and receives hundreds of nominations from companies every year. Employees from nominated companies, which are evaluated in four categories based on headcount, are invited to participate in a confidential survey from Quantum Workplace. The survey results are then tabulated and used to rank the top companies.

This year Nintex ranked in the 100-249 employee category. Nintex was first recognized by the publication in 2015 and again in 2016. Employees consistently praise Nintex for its collaborative culture, competitive benefits, leadership and more.

"We're honored to receive continued recognition from the *Puget Sound Business Journal* as one of Washington's Best Workplaces," said **Nintex CEO John Burton**. "Our people are our biggest strength and remain committed to fostering collaboration, driving innovation and delivering easy-to-use technology that generates immediate impact for Nintex customers and partners globally."

Since 2015, the number of employees at the company's Bellevue headquarters has grown more than 60 percent. Nintex provides award-winning cloud technology that helps more than 7,000 organizations across every industry easily automate business processes by quickly connecting people, content and systems of record.

Earlier this year, Nintex was also named one of the top 10 large companies by *Seattle Business Magazine's* annual Washington's 100 Best Companies to Work For program. Nintex's London office was recognized on the 2017 UK's Best Workplaces™ List. Additionally, Nintex was named the Best Workflow Tool 2017 by *Redmond Channel Partner* and by *CRN* as one of its 2017 100 Coolest Cloud Vendors.
