

Nintex Recognized as one of the UK's Best Workplaces™ in 2018

Employees applaud Nintex company culture for its transparency, accountability, and respect for one another

LONDON, April 26, 2018 /[PRNewswire](#)/ -- Nintex, the world's leader in [intelligent process automation](#) (IPA), has been named to the UK's Best Workplaces™ ranking by Great Place to Work®. This is the second year in a row where Nintex has been recognized by its United Kingdom-based employees as an organization that promotes trust, camaraderie, and celebrates results.

"We're thrilled to be continually recognized as a great place to work," said Nintex CEO Eric Johnson. "Our company runs on three core tenants: don't wait, deliver on commitments, and operate with respect. As our leaders and employees advocate and demonstrate these principles, Nintex will continue to flourish."

Nintex was recognized in this year's medium category, designed for organizations with between 50-499 employees. The company currently employs more than 60 people in London and more than 400 globally, and ranked along with 66 other medium-sized UK organizations.

UK's Best Workplaces ranking surveys employees (Trust Index®), the results of which represent two-thirds of the company's final score. The remaining third is the Culture Audit, a business-driven questionnaire that Great Place to Work uses to understand and evaluate the organization's HR and leadership practices, policies, and culture.

Nintex offers competitive salaries, flexible working environments, and generous employee benefits. The company has a solid track record of winning awards for culture and innovative IPA technology, including its cloud-first platform [Nintex Workflow Cloud](#).
