Nintex Announces Customer Finalists in its 2020 Solution Innovation Awards Program

Commercial enterprises and government agencies are improving the way people work by standardizing their organizational-wide business processes and workflows on the Nintex Process Platform

BELLEVUE, Wash., June 2, 2020 /PRNewswire/ -- Nintex, the global standard for process management and automation, today announced the finalists for its **2020 Nintex Solution Innovation Awards** program across 13 categories. The awards recognize commercial enterprises and government agencies from around the world who have standardized on the Nintex Process Platform to manage organizational-wide business processes and to automate mission-critical workflows.

"It's so inspiring to see what customers and partners around the world are achieving with the Nintex Process Platform," said **Nintex Chief Customer Officer Josh Waldo.** "We congratulate every 2020 Nintex Solution Innovation Award finalist for their organization's ability to accelerate digital transformation and improve the way people work with business process management and automation."

Any public or private sector organization that leverages one or more of the capabilities of the Nintex platform is eligible to enter the annual awards program. The 2020 award finalists were selected based on nominations submitted directly by a Nintex customer or a Nintex partner, on behalf of a customer, for a solution they designed and implemented.

This year's awards program features a new category for business continuity which recognizes organizations that leverage the Nintex Process Platform to successfully navigate and implement change within their operations and across their workforces including processes for remote work, social distancing, contact tracing, and more.

Finalists by award category for the 2020 Nintex Solution Innovation Awards include:
